Do you know what to look for when buying your bare root stock? I received some helpful pointers from the Nursery department of the PARAMOUNT CENTER, 3401 Torrance boulevard. Timing is of prime importance. The plants should be in the ground before new growth starts... and that time is now. Look for plants that have stocky, well-developed roots and tops. Examine the bud onion to make certain it is not cracked. You will find them most helpful at Paramount Center. It is a pleasant and beautiful spot with a wide selection of healthy Nursery stock. Make an early selection.

Everyday you get dollars worth of convenience for pennies worth of electricity!

You probably never give it a thought when you visit friends while your meals are cooked, sit and read while the clothes are laundered or make shopping trips (to your freezer) without leaving the house. All of these things are familiar parts of your daily living. But to a visitor from the days before electricity, they would represent a degree of convenience possible only with the help of a large staff of servants, and only with the expenditure of a good many dollars. Your visitor would be amazed to know that you pay just a few pennies a day for all the electricity used in your home.

Luxury costs so little, electrically!
